CACUSS '92 WELCOMES YOU

By encouraging the intellectual and personal development of students and their integration into the academic environment, Student Services lend considerable support to the teaching staff of colleges and universities. As such, those involved daily in the delivery of student services are outstanding partners in the post-secondary academic system.

Lucienne Robillard

LUCIENNE ROBILLARD
The Minister of Advanced Education and Science

I was eager and pleased to support the annual conference of the Canadian Association of College and University Student Services. The Eastern Townships are proud to welcome the delegates to the conference.

Universities and colleges are the melting pot where we form lifelong friendships. These institutions are also the place where cultural exchanges and an understanding of cultural diversity are fostered.

Student Services through the services they offer, as well as with personal contact, play an essential role in the development of a society, fully aware and proud of its diversity.

MONIQUE GAGNON-TREMBLAY
Députée de Saint-François,
ministre des Communautés culturelles et de l'Immigration
vice-présidente du Conseil du trésor.

C'est avec grand plaisir que nous accueillons le congrès national de l'ASEUCC.

Lieu de rencontre de tous ceux et celles qui se préoccupent d'éducation et particulièrement de la qualité de la vie étudiante sur les campus des collèges et des universités du Québec et du Canada, ce rassemblement ne peut que donner lieu à des échanges fructueux et enrichissants ainsi qu'à des discussions constructives et animées, marqués par la présence de conférenciers renommés en matière d'éducation.

We are particularly delighted to welcome everyone of you from outside Quebec and wish this national meeting will provide enriching exchanges and that you will most enjoy your stay in our region.

Bon congrès à toutes et à tous et bon séjour dans notre région!

ANDRÉ J. HAMEL

It gives me great pleasure to address the participants of the annual meeting of the Canadian Association of College and University Student Services.

Your theme for this year's meeting, "Partenaires/Partners", aptly illustrates the importance of joining forces in taking up the diverse challenges of today's world.

Over the next few days, you will have an opportunity to discuss your concerns and projects with your hosts, the five postsecondary institutions of the Sherbrooke region. As the MP for this riding, I am delighted to see that the spirit of initiative of local institutions is alive and well and that these institutions continue to strive toward the professional development of student services specialists.

I would like to congratulate organizations such as yours for their efforts in the professional development of our human resources, our most valuable and most promising resources.

Best of success in your meeting!

On behalf of Association's Board of Directors, I welcome you to the 1992 Conference of the Canadian Association of College and University Student Services (CACUSS).

The organizing committee has developed what will undoubtedly be an enriching and professionnally challenging experience for you. You will also discover that this conference is a wonderful opportunity to develop contacts with those who work in your own student services area as well as with those who work in other areas.

This is your association and my fellow Borad members and I would appreciate receiving suggestions from you on how the Association can better meet your professional needs. Come talk to us while you are in this conference. We are here to serve you.
